FULL-STACK DEVELOPER

Dedicated full-stack developer with expertise in React.js, known for enhancing user experiences through feature development. Proficient in creating reusable components and libraries, transforming designs into pixel-perfect code. Adept at optimizing components for peak performance across various devices and browsers. Experienced in Redux and skilled in RESTful APIs and Git for collaborative development.

SKILLS

Reactjs
Redux
Javascript

Html
Css
Frontend Libraries

Git
Rest Api
Backend

PROFESSIONAL EXPERIENCE

Hexbit

Dec 2023 - January 2024

Full Stack Developer (Intern)

Accomplishments:

- Devoted around 50% of my efforts to crafting reusable components and front-end libraries using React.
- Implemented enhancements to the ONDC API, optimizing seller-side and admin-side functionalities.
- Developed and optimized 10+ API endpoints using JavaScript & Node.js, and tested using Postman.

Agbiz Technologies

Apr 2023 - July 2023

Full Stack Developer (Intern)

Accomplishments:

- Spearheaded the development of responsive user interfaces using React.js, investing approximately 40% of my time..
- Devoted around 30% of my efforts to crafting reusable components and front-end libraries for future project efficiency.
- Proficiently managed Git version control for seamless collaboration, accounting for 30% of my responsibilities.
- Successfully implemented Redux for enhanced state management, resulting in a well-structured data flow.

NOTABLE PROJECTS

Ai Image Generator

[repository](#)

- Led the development of an AI image generator utilizing OpenAI's advanced models, resulting in image generation based on text prompts.
- Utilized a MERN stack (MongoDB, Express.js, React, Node.js) for database management and server-side logic.
- Employed MongoDB for data storage and implemented the Tailwind CSS framework for a modern and responsive user interface.

Flipkart Clone

[repository](#)

- Created a complete MERN e-commerce application, closely resembling Flipkart, with Material-UI components for a polished and intuitive user interface.
- Collaborated with a team to ensure the integration of MongoDB, Node.js, and Express.js for backend operations.

EDUCATION

Bachelor of Computer Science (Kannur University)

July 2019 - July 2023
